

TEKNOKROMA'S ENVIRONMENTAL POLICY

1. Introduction

TEKNOKROMA Analítica, S.A. establishes this Environmental Policy as a framework to ensure responsible and sustainable behaviour of the organisation.

The policy is subsequently developed in the **Environmental Management Plan**, which defines the strategic lines, objectives and measures applicable to environmental management in TK.

2. Environmental Commitments

TEKNOKROMA undertakes to:

- Protect the environment, including the prevention of pollution, as well as the minimization of environmental impacts associated with our activities.
- Comply with current environmental legislation and regulations, as well as with other requirements that the organization subscribes to.
- Continuously improve the Environmental Management System in order to improve environmental performance, promoting more efficient and sustainable practices.
- Integrate environmental criteria in all productive, commercial and logistical activity, promoting the responsible use of natural resources.
- Establish, review, and maintain environmental objectives and goals, providing the necessary framework for their deployment and monitoring.
- Ensure that this Environmental Policy is communicated and understood by all workers and made available to interested parties and the public.
- Ensure that the Policy is appropriate to the purpose, context, magnitude and environmental impacts of TEKNOKROMA, reviewing it periodically to ensure its validity and adequacy.

3. Priority Areas

3.1 Water management

- Reduction of consumption by ETC.
- Leak and installation control.
- Prevention of spills in laboratories.

3.2 Energy and carbon footprint

- Improved energy efficiency.
- Renewable energy production.
- Reducing emissions.

3.3 Waste

- Minimization of waste.

- Complete segregation.
- Control of chemical residues.

3.4 Sustainable mobility

- Promotion of sustainable transport.

3.5 Environmental health

- CAI and interior noise.

4. Responsibilities

The Directorate guarantees the necessary resources and the assignment of a person responsible for the environmental management system. Workers must act in accordance with the internal commitment signed, which includes the obligation to comply with applicable environmental regulations.

Signed:

R. Nadal

Chairman of the Board of Directors
